S.D.

early as possible. The Kodi fishing hamlet opposite Moolky has risen considerably in importance within the last 3 or 4 years, as many of the fishermen from the neighbouring hamlets situated on the other bank of the Moolky river have now shifted to Kodi where they have settled. The Inspector of Fisheries, Mangalore who inspected the site selected by the petitioners reports that it is conveniently situated and is suitable for locating a yard. The District Health Officer, South Kanara who was consulted approves of the site, vide copy of his letter enclosed. The advance required by the curers from Government for the construction of the yard buildings etc., is Rs.1,500/- as per details below:

Combined guard, office and store shed.	Rs.1,200
Dry thorn fence.	300
	1,500

The advance can be recovered from the curers by the levy of a cess at 3 annas 4 pies per maund of salt issued to them in the yard

In their petition they say that the yard if sanctioned will consume about 2,000 Mds. of salt during the fishing season. It is not at present possible to estimate with any degree of accuracy the quantity of salt that may be consumed in the yard. Even if there should be a loss the curers are agreeable to make good the loss as per the conditions laid down in G.O.No.MS. 1002 Development dated 23th July 1934.

I have therefore the honour to request that Government will be pleased to sanction (1) the opening of a fish curing yard at Kodi near Moolky in the South Kanara district, (2) the employment of a Petty yard officer on Rs.19/- p.m. and a peon on Rs.12/- p.m. for a period of one year, and to provide the necessary funds as per details below in the budget for 1935-36.

(Designation) Director of Fisheries,

To The Secretary to the Government of Madras,
Development Department.

Sir,

M.S. Gupta

I enclose herewith two petitions in original received from the fishermen of Moolky for opening a fish curing yard in their village Kodi near Moolky. The petitioners state that they will provide a suitable site for the yard and request that the yard may be constructed at Government cost in the first instance and the cost recovered by means of a cess from them. The fishermen of this village personally represented to me in April last that a fish curing yard was a real necessity in their village and were keen on getting a yard opened there as

Ref. D.F.'s letter Ref No 1845-F/34-8 dated 19.10.34. Fish curing yard. Monkey. Opening of

It has been suggested that since the Construction of the Combined Guard, Office and Store shed and the Dry Storage fence will have to be completed before the yard is opened and as fish curing operations may have to be stopped during the monsoon, the yard will probably be in working order only in September 1935 and that provision for only six months for the Petty Yard Officer and Peon will be sufficient during 1935-36. The Director is requested to state whether this provision will be sufficient.

2. The Director is also requested to report the normal annual anticipated receipts from the yard and the receipts that will accrue

F 17 Dev. Dept.

Cir. No. 3457/II/34. Subject. Fisheries. Fish curing yard - opening at Mowbray in the South Kanara District. Part II Scheme for Rs 35-36.

From the Dir of Fisheries, Rep No 1565-5/34-5 dated 29.9.34 No 3457/II/34-1 dated 12.10.34 & enclosure, from do. Rep No 1565-5/34-8 dated 19.10.34

A.S.

The Director of Fisheries has submitted proposals for the opening of a fish curing yard at Kodi near Mowbray in the South Kanara and for the employment of a Petty yard officer and a peon for a period of one year.

2. The fishermen of Mowbray are prepared to provide a suitable site for the location of the yard and have requested that the yard may be constructed at Gangoli in the first instance and the cost recovered by means of a cess from them at the rate of 3 annas 4 pies per maund of salt issued to them with yard. It is expected that about 2000 MDs of salt will be consumed in the yard during the fishing season. Even if there should be a loss in the working of the yard, the Canara are agreeable to make good the loss as per conditions laid down in Govt No 1002 dated 25.7.34

2000 x 10 / 48 = 3417 A annas 4 pies

(N)

2 3 18

The financial effect of the proposal to open a yard will be as follows:-

Non-Recurring Cost.

	Rs
Cost of construction of Combined Quarter, office and store-shed ...	1350
Dry thorn fence ...	150
Total	1500

This will be recovered from the owners by a recovery.

Recurring Cost.

	Rs
1) Pay of Establishment 1 Dockyard officer - 192 1 Peon ... 12	372
2) Supplies and Services - Purchase and transport of Sola. 2000 mds @ 0-10-6 per md.	1302
3) Contingencies	100
Total	1774

3. It is submitted that the Director's proposal may be approved. It may be treated as a Part II Scheme for 1935-36. As the construction of the shed and fence will take some time, and the yard will commence working by about the beginning of July 1935, it seems sufficient therefore to make provision for 10 months only during 1935-36. A draft note for the Finance Committee is submitted for approval. It may be sent to the Finance Department for acceptance and for adding their note if any.

Part II Schemes for 1935-36

Subject :- Opening of a fish curing yard at Mobby in the S. Kanara Dt.

Kept below

Please see the draft note for the Finance Committee which explains the Schemes fully. The financial effect is summarised below :-

		Rs
Immediate Cost	Non-Recurring	1500
	Recurring	1774
Cost in 1935-36	Non-Recurring	1500
	Recurring	1700

See Summary of the Note for Fin. Committee

["Non-Recurring expenditure is to be provided under "Loans and Advances by Provincial Govt."]

(N)

2. Govt Go No: 1022 Dev. dt 23.7.34 the Govt have laid down the policy regarding the opening of new fish curing yards in future. Accordg to these orders no new yards should be opened during 1935-36 unless the Coops concerned undertake to bear the loss, if any, incurred in the working of the yards, to deposit in advance adequate security and to execute a bond making themselves jointly and severally ~~responsible~~ liable

to make good the loss. The fish curers in the present case have agreed to make good the loss, if any, in the working of the yard and to deposit an assurance adequate Security and to execute also the necessary bond. Subj that Finance may agree to the opening of the yard at Mookky.

para 13 of

3. Ten months' provision has been made for the Staff for 1935-36. on the grounds that the Construction of sheds and fence will take some time and the yard will commence working only by the beginning of May 1935. In the case of a fish curing yard opened at Pudiakadappuram in the Malabar, only 9 months provision was made In a later case (Madakara) only 6 months provision was made. It seems sufficient if provision is made for ~~12 months~~ six months in the present case.

NOTE BY THE DEVELOPMENT DEPARTMENT.

Kodi is a fishing hamlet opposite to Moolky in the Mangalore taluk of South Kanara district. It is reported to have risen considerably in importance in the last three or four years, as many of the fishermen from the neighbouring hamlets situated on the other bank of the Moolky river have now shifted to Kodi and have settled there. The fishermen of the place personally represented to the Director of Fisheries in April last that a fish-curing yard was a real necessity in their village and were keen on getting a yard opened there as early as possible. They have selected a site for the yard and propose to purchase it. They request that the yard may be constructed in the first instance at Government cost and the cost recovered from them as usual in the shape of a cess at 3 annas and 4 pies per maund of salt issued to them. It is estimated that about 2,000 maunds of salt will be consumed by them in the fishing season. They agree to make good the loss, if any, in the working of the yard and to deposit in advance adequate security and to execute also the necessary bond. The Inspector of Fisheries, Mangalore, who inspected the site selected by the petitioners reports that it is conveniently situated and is suitable for locating a yard. The District Health Officer, South Kanara, who was consulted approves of the site. The Director recommends the opening of a fish-curing yard in the village and the employment of a petty yard officer on Rs. 19 per mensem and a peon on Rs. 12 per mensem for a period of one year. This department supports his recommendation.

Dev. 25/4/35

The Govt approve the proposal of the Director of Fisheries that a fish curing yard should be opened at Mowlky in the South Kanara District and sanction the estimate submitted by him amounting to Rs 1500/- (rupees one thousand and five hundred) for the construction of a combined guard, office and store shed, and fence, subject to the condition that the owners concerned undertake to reimburse Govt the loss, if any, incurred in the working of the yard, in deposit in advance adequate

Security and to execute a bond making themselves jointly and severally liable to make good the loss. The yard will be sanctioned temporarily for a year and a staff of one petty yard officer on Rs. 40/- p.m. and one peon on Rs. 12/- p.m. will be sanctioned for the yard with effect from 1st Sept. 1935 or any later date when the yard will be ready to commence work. Necessary provision has been included in the budget estimates for 1935-36 as shown in the Annexure to the order.

2. The cost of construction of buildings and fences for the yard should be recovered from the Coirs in the shape of a cess at the rate of one pie per seer of husk issued to them, but no interest will be charged.
